This submission form is intended to help you make a submission on the Draft West Coast Regional Public Transport Plan 2023. Where relevant, please give reasons for your answers. If more room for answers is required, attach answers on a separate piece of paper. Please return your submission by 5.00pm, Friday 29 September 2023.

- 1. Do you think the policies and actions for delivering public transport on the West Coast are appropriate given the characteristics of the region? Are there any other policies and actions you would suggest including?

The Objectives and Policies set out in the Draft Plan are appropriate to the issues, though I submit that there are some gaps in regard to the Actions. Specifically, there is an urgent need for a wheelchair taxi in Greymouth [see Objective 1, Policy 2], and the stated Action for Policy 1, Objective 3 - "Explore the potential for undertaking investigation for on-demand services" - is too diffident, and I submit it should match the Action for Policy 1, Objective 1, and simply undertake the proposed investigation.

- 2. Do you think that there are other services that should be available other than those identified within this RPTP? If yes, please detail what these are and justification for their inclusion.

[Empty lines for response to question 2]

3. Are there any other comments you wish to make on this draft RPTP?

As you have noted the West Coast does not have a comprehensive public transport network. This further disadvantages those who are already disadvantaged by not owning or not being able to drive a car. The proportion of West Coast residents in this category is higher than the national average (higher median age, higher proportion of disabled, and significantly lower median household income). Furthermore, fuel costs and other daily expenses are expected to keep rising.

NOTE:

The provision of public transport services is dependent on district and regional rates as well as subsidies from the NZ Transport Agency. The Policies and Actions in this draft RPTP 2023 have been included within the relevant local authority Long Term and Annual Plan processes, as well as detailed in the draft Regional Land Transport Plan 2021 - 31. Increases to the funding proposed will also need to be addressed through these planning processes. Current proposed funding can be viewed in the draft Regional Land Transport Plan 2021 - 31.
