I **support** the applications referenced within this document and **wish to be heard** in support of this submission at any hearing that may be held.

If others, make a similar submission I **am willing to make a joint case** with them at any hearing.

I wish to receive **electronic** copies of the s42A Officer's Report and Decision.

I have served a copy of my submission on the Applicant as per s96(6)(b) of the Resource Management Act 1991.

**Reasons for Submission**

The applicant is intending to mine for an array of minerals which have serious strategic value for New Zealand and more generally for the developed world.

The method is largely able to be rehabilitated and will in time support the community once the project has passed over the project area.

The produced revenues will support a large community of highly paid jobs and tax revenues. By demonstration this project can form a strong example for the future that is lacking in NZ.

As such given the overwhelming support for wealth building projects that are so lacking in all of NZ and the need to distribute wellbeing in these distal communities all efforts should be directed to making this happen.

**I seek the following decision from the Consent Authorities:**

That the application be **granted** in its entirety.
