Reasons for Submission

During our time of providing services to the mine site I have seen no reason not to grant the application, they have run the site in a manner well suited to the environment using best mining practices.

The only negative has been in the early stages, open communication with middle management was lacking.

I have been in and around the mining industry for 30 years.

we seek the following decision from the Consent Authorities:

That the application be **granted** in its entirety.
