☐ Electronic (CD) copy

☒ Hard (paper) copy

I/we have served a copy of my/our submission on the Applicant as per Section 96(6)(b) of the RMA

☐ Yes

My/our submission is that: (state in summary the nature of your submission. Clearly indicate whether you support or oppose the specific proposal, or wish to have amendments made, giving reasons)

I oppose the consent to mine this area as it is situated in wetlands, close to Lake Mahinapua scenic Reserve and walkway. The failing and fragile infrastructure will not support 70 truck movements a day on a 24/7 timetable. Contamination of the groundwaters will occur.

I/we seek the following decision from the Local Authority: (give precise details)

To withdraw consent from the local authority
To realise that the Mineral sands mining is expansive, this miner is applying for its second prospective mine and is looking for a third.

WMS says "the removal of HMC from the ^{Westland.} site will result in an overall reduction in ground levels, however the site will be rehabilitated to minimise the impacts of this reduction."

The reduction will result in the area falling below sea level and due to its closeness to the sea and the facts of close proximity to Lake Mahiniapua would make it a threat to this ecosystem.

The infrastructure is not robust and deterioration is imminent. This must be remedied before any industry is activated.

as far as boasting the West Coast GDP by 1.8% and the fact that royalties received by the government at 3% ^{some} may filter down to the regions. This is a joke, there is no certainty of getting any revenue.

Total disruption to the State Highways by HMC trucks at 70 truckloads a day; ~~interfering~~ interfering with local traffic, causing probable safety issues.

The first part of the document is a list of names and dates. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list appears to be a record of some kind, possibly a list of patients or a list of people who have been treated. The names are written in a way that is difficult to read, and the dates are written in a way that is also difficult to read. The list is organized into two columns, with names on the left and dates on the right.
