We support the applications referenced within this document. We are not available to be verbally heard at a hearing.

We wish to receive electronic copies of the s42A Officer's Report and Decision.

We **have** served a copy of my submission on the Applicant as per s96(6)(b) of the Resource Management Act 1991.

Reasons for Submission

As a local business owner I believe that this development will greatly benefit Westland and the greater West Coast in its entirety. The jobs created will have positive spinoffs for the community and create other jobs and opportunities for the service industry, tourism, accommodation and hospitality for instance.

This is a low impact extraction industry with limited effects on the environment.

The Coast needs developments like this to maintain a vibrant and growing economy. I do not want a very limited vocal minority to lock up the resources of the coasts as has happened in recent years.

I support the application 100 percent.

I / we seek the following decision from the Consent Authorities:

That the application be **granted** in its entirety.
